

Nagoya Fluorine Days 2026 Presentation Awards Winners

Oral Presentation

CSJ BCSJ Award sponsored by The Chemical Society of Japan

- **O-15 – Airi Yamaguchi** (Ochanomizu University, Japan)

Metal-Free Visible-Light-Induced Perfluoroalkylation of Amines for the Synthesis of Perfluoroalkylated Amides

Poster presentation

Elsevier Journal of Fluorine Chemistry Prize sponsored by Elsevier

- **P1-09 – Joji Takeuchi** (Nagoya University, Japan)

Development of Photo-promoted Oxytrifluoromethylation of α,β -Unsaturated Carbonyl Compounds Utilizing Properties of Iron Salts

- **P1-16 – Khue M. Tran** (Gunma University, Japan)

Synthesis and Optical Properties of Trifluoromethyl Isobenzofurans with Aryl Substituents

RSC Prize sponsored by Royal Society of Chemistry Books

- **P2-04 – Laurianne Verret** (Université Laval, Canada)

Organophotoredox-Catalyzed Alkylation of Vinylsulfur Pentafluoride: Expanding Access to SF_5 -Containing

- **P2-06 – Marie-Rose Ouellet-Du Berger** (Université Laval, Canada)

Diphenylmethanone O-(2-(Pentafluoro- λ^6 -sulfanyl)acetyl) Oxime as a Novel CH_2SF_5 Radical Transfer Agent Aliphatic Molecules

- **P2-17 – Seinosuke Okumura** (Kyoto Institute of Technology, Japan)

Synthesis of CF_2CF_2 -Containing Benz[e]indene and Fluorescent Tetracyclic Isoquinoline Derivatives

Chemistry Letters young Researcher Award sponsored by The Chemical Society of Japan

- **P1-14 – Yuki Mihara** (Institute of Science Tokyo, Japan)

Trifluoromethylation of Poly(3-hexylthiophene) via Electrochemical Radical Reaction

- **P2-19 – Ibuki Oshima** (Ibaraki University, Japan)

Hydrogen-Bond-Controlled Solid-State Emission of Benzothiazole Derivatives for PFAS Sensing

- **P2-29 – Kento Imamura** (Institute of Science Tokyo, Japan)

Fabrication of Fluorinated Covalent Organic Framework Films by Indirect Electrolysis and Their Electrochromic Behaviors
